JOHDANTO

Sisävesien tuottoa selvittävän koetoiminnan monisteessa № IV esitetään koejärvistä v. 1964 saadut saaliit. Kalastus on suoritettu samalla tavoin kuin edellisinä vuosina ja myös tulokset esitetään taulukoituna samaan tapaan kuin aikaisemmissa monisteissa.

Eri koejärvistä v. 1964 saatu saalis esitetään taulukoissa I-III. Lisäksi on taulukkoon IV koottu eri vuosina järvistä saadut kokonaissaaliit ja taulukkoon V keskimääräinen saalis verkkosarjasta vv. 1961-1964.
